

DC PICKLEBALL LEAGUE

Why join our ladder league?

- 1) Our shootout ladder leagues are designed for you to play multiple games with players of similar skill level in a fun & competitive environment while climbing up the ladder as you improve across the season!
- 2) We offer both "Social" League & "Competitive" league according to your interests. The Social leagues are intended for advanced beginners to low intermediate players (2.5-3.2 skill level) and consist of one-hour "shootout" round robin session amongst 4-6 players with 30 min. open play each week. The Competitive Leagues are for intermediate to advanced players (3.0 & above skill level) and consists of a two-hour, double round-robin format plus 45 min. of open play each week.
- 3) Ladder rankings are updated based on your performance in the round robin events. As you play each week, your ladder ranking will become more accurate, and your matches more competitive.
- 4) While our leagues focus on doubles pickleball play, you do not need a partner, there is no need for a substitute if you miss a week! One of the benefits of the shootout ladder league format is that players can miss a week and not be punished in their ladder ranking -- not that anyone would miss a week of fun, right?
- 5) Enjoy the spectacular view of The Wharf DC across the river, a beautiful area with lots of attractive things to do before & after your play in the the league!
